

**Автор:** Дюсенбай Гүлжанат Таймасқызы

**Предмет:** Английский язык

**Класс:** 7 класс

**Раздел:** Space and Earth

**Тема:** Planets

Learning objectives(s)	R1. Understand the main points in text on a limited range of unfamiliar general and curricular topics. L5. Recognize the opinion of the speakers in supported extended talk on a range of general and curricular topics. C10. Use talk or writing as a means of reflecting on and exploring a range of perspectives on the world. S6. Begin to link comments with some flexibility to what other say at sentence and discourse level in pair, group and whole class exchanges. C5. Use feedback to set personal learning objectives
Lesson objectives	All learners will be able to identify the main idea in the text <ul style="list-style-type: none"><li>• Most learners will be able to make a conversation to each other according to the topics</li><li>• Some learners will be able to prepare presentation on the given topic</li></ul>
Assessment criteria	* Identify the main idea in reading passage * Identify the position of speakers in an extended talk with some support * Consider different perspectives on the world orally or in a written form * Interact in a pair, group and a whole class work presenting logically connected information with ideas of other people * Consider classmates' advice and set personal learning objectives based on their feedback
Level of thinking skills	Application, higher order thinking skills
Value links	Economic growth based on industrialization and innovation
Cross-curricular links	Physics
Previous learning	Learners already know new words about space and earth, they should know facts about planets

### Ход урока

Этапы урока	Запланированная деятельность на уроке	Ресурсы
Beginning (5 minutes))	<p><b>Greetings.</b> Good evening, my dear pupils! -Who is on duty today ? -Who is absent? -What date and what day is it today?</p> <p><b>Lead in :</b> Learners are given chocolates with names' planets. They must say compliment to other pupil. Example: You are like Neptune, so fantastic. Teacher divide class into two groups: moon and sun.</p> <p>Do you want to travel to space? Then put on your spacesuits. Now look at the screen and watch the video. Answer the questions. -What have you known about Space? -What have you known about Earth? How many planets are there? Name them. - What is the biggest planet? - What is the smallest planet? - Who was the first person in space? - Who was the first human to walk on the Moon? - What do you know about Baikonur Cosmodrome?</p> <p><b>- Introducing the lesson objectives</b> Determines together with learners the learning objectives, the assessment criteria -First, in our lesson, you will talk about the planets. Second, you should use comparative and superlative adjectives.</p>	Cards, pictures
